

WEDNESDAY MORNING LOW COAL RATE

C.N.R. President Is Unwilling to Tender Any Definite Promise

Alberta Coal for \$9

If Freight Rates Cannot Be Adjusted, He Suggests That Alberta Mine Operators and Ontario Distributors Each Take Loss

LONDON, Ont., May 1.—Should the Canadian National railway find it impossible to adjust freight rates in such a manner as to transport Alberta coal to Ontario to compete with American operators, the mine owners of the Western provinces and the distributors of Ontario must shoulder their share of the burden and not increase their rates.

This was the warning tonight from Sir Henry Thornton, president of the Canadian National lines, in his concluding remarks of an address before the Canadian club.

Unable and unwilling to tender any definite promise, Sir Henry declared that it was his duty to state that it was just possible that coal could be brought from Alberta to the province of Ontario, without loss to the government roads and at a price that would practically eliminate the American mining interests as serious competitors for Canadian patronage.

"This is a big problem and I speak before you with hesitation," Sir Henry declared. "It is largely a matter of freight rates. It may be possible that we shall be able to fix the rates in such a way that the coal may be brought to your province with a small profit to ourselves. We cannot, or will not, undertake to handle it as a loss."

Waters Have Taken One Life and Unestimated Property Damage

CANADIAN PACIFIC LINE IS CRIPPLED

Their Trains to Montreal Are Routed Over the Canadian National

ST. JOHN, N.B., May 1.—The worst flood covering the province of New Brunswick since 1817 was reported to have been at its worst to-day and late tonight the height of the water appeared to have passed. The head waters of the Kennebec and St. John rivers are receding and it is expected that the Pacific railway will restore local train service tomorrow.

The waters have taken one life and unestimated property damage in the province.

Canadian Spinnery, a farmer of Moncton, was drowned last night in an attempt to save some of his livestock when the flood carried away his house and barn.

The St. John river, which has become a raging torrent under the influence of the water from the St. Lawrence, last night broke a dam at the head of the New Brunswick power commission, putting one of the four turbines out of commission.

Canadian Pacific railway trains are being routed over the Canadian National line to Montreal. There are no trains over the St. John valley railroad.

Reports from Woodstock, N.B., tonight indicate that the water is falling and about \$150,000 worth of damage there.

PLEBISCITE TO BE VOTED ON JUNE 22 BY MANITOBA PEOPLE

WINNIPEG, May 1.—No importance attached to any of the reports that the Manitoba plebiscite on the federal franchise will be held on June 22, 1923.

Mr. W. L. Mackenzie, minister of public works, announced that the government had decided to build a new bridge over the Red river at Winnipeg with the well designed department.

John Queen, labor member for the riding of St. James, was arrested today by providing for a county court judge. Introduction of the bill for the plebiscite was delayed as a result of the decision of the N.B. court.

Canadian National Vs. Radia Tonight

First Division Game Scheduled to Be Played at Diamond Park Starting at 8:45 This Evening—Craig Will Referee—Teams Are Showing Steady Improvement as Season Progresses

The evening at Diamond Park between the Canadian National and the Radia will be a first-class affair, the teams starting at 8:45 o'clock. W. Craig will referee.

There is a heavy rain to-day the field should be in excellent shape. The rain which fell Monday and Tuesday night left it a bit heavy yesterday morning but the ground rapidly cleared it up during the day until yesterday evening it was first and fairly dry. A continuation of moderately fair weather will leave it in almost perfect condition for this evening.

Both Stronger

The teams have both improved since their last appearance. The Radia have one or two new men to offer to the public and the railroaders have a vastly improved system of team play. Both teams made a good impression in their previous games with the strength which both have undergone to-night's contest should be the best yet to the present. The C.N. has been improving its play on the forward line and supporting the full back line. The Radia have been doing better than they were some time ago.

Draw Large Crowds

First division games are drawing large crowds to Diamond Park this evening. For the last time of the season the class of football has been shown steady improvement as the athletes get into better condition and become more accustomed to each other's play. It is of the season last year and it is a fact that the Radia have made considerable progress in their play. The season should just about close with the Radia leading the series which will be brought on during June. By that time the teams will have reached their best condition and should be in the best possible shape for the present season.

BEGIN HERE—The night was being damned. The rain was falling on the city of Chicago. The streets were dark. The lights were out. The people were asleep. The city was dead. The night was long. The rain was cold. The streets were wet. The lights were dim. The people were tired. The city was sad. The night was dark. The rain was heavy. The streets were empty. The lights were off. The people were gone. The city was silent. The night was black. The rain was loud. The streets were empty. The lights were out. The people were asleep. The city was dead.
